

The Downtown Revitalization Committee (DRC) is looking for individuals or businesses that are willing to donate their time on Saturday June 7 or Sunday June 8 in order to give the Downtown area a much needed facelift. We will be painting, power washing, planting, landscaping, and performing a general clean up. The committee will be meeting at the Depot located near the RR tracks on Broad Street.

The Tri-Kappa women and the Historical society will be supply snacks and drinks. This is an opportunity for High School and College kids to enhance their resume by doing community service for the Town of Griffith. It is also a great chance to participate in a community project that will make our town a better place to live.

This is the first of many phases to help revitalize the Downtown area. This committee and your Town Council are committed to improving the Downtown business district. With the help of the community, we can begin to accomplish great things.

Anyone interested in getting involved with this community event should call 924-7500 or email the DRC.
